Product Change Notification

Change title:	PCN 52 - B900 Series / B200 - Hardware / software update - Maintenance
Date:	16th December 2021

Type of Change:

■ SOFTWARE	□ TYPE APPROVAL COMPLIANCE	□ QUALITY
■ HARDWARE	■ IMPROVEMENT	□ SOFTWARE ERROR CORRECTION

Products affected:

Product Codes	Description
429-0007 430-xxxx	em-trak B200 Class B SO transceiver B900 Series

Description:

The B92x software has been updated to 140200.01.13.01 and the B200 / B95x software has been updated to 150200.01.17.01. This is required for a hardware change, which has been implemented to support alternative components.

Recommendations:

□ RECOMMENDED	□ OPTIONAL	■ INFORMATION ONLY

In line with existing practice, all units returned to em-trak for repair will have the latest version of software applied prior to shipment.

Additional notes:

This software update will be applied in production. It is backward compatible with existing hardware but there is no requirement to apply it to units in the field.
